

2nd webinar of the NENUPHAR project - register!

*From policy to practice:
aligning policies for
sustainable nutrient
management*

22 October 2026, 11:00 CET, online

In the framework of the NENUPHAR project, as part of a series of four webinars for regional stakeholders, this session will explore **policy alignment for sustainable nutrient-pollution management**. It will discuss how coherent and supportive policy frameworks can help bridge the gap **from policy to practice** and enable the uptake of circular nutrient solutions.

Agenda

- | | |
|-------------|---|
